

BBM Maschinenfabrik GmbH at the 21st UGOL ROSSI & Mining 2014 in Novokuznetsk, Russia, June 3 - 6

BBM Maschinenfabrik GmbH, a member of BBM Group, presented itself on the international community stand of the State of North Rhine Westphalia (NRW) for the first time at the 21st international trade show for mining and exploration technology, mineral processing and coal extraction UGOL ROSSII & MINING. This annual trade show is the most important event of its kind in Russia. It gives the platform for an intensive interchange between visitors and exhibitors from inland and abroad as well.

On a total exhibition space of 12.130 sqm 760 well-known producers and suppliers from the mining industry presented their products, innovations and services.

BBM – Messe Russland

The proximity to the largest coalfield in Russia, the Kuzbass basin, Novokuznetsk makes it an attractive exhibition location. This was one reason for BBM Maschinenfabrik GmbH to participate in that exhibition. In varied, interesting discussions we maintained existing relations to local mining institutions and companies and made new promising contacts.
